### \*\*\*\* HOW TO USE THIS FITTING CHART \*\*\*\*

Part numbers shown are for the complete TRS including pins.

If you need just pins, change part number from "-TRS" to "-PIN"

Legacy part numbers were used until late 2023 before numbering system was changed.

If product link not present or does not work, call 256-533-1977 to order.

## KRAMER

<u>Bike Model</u>	<u>TRS Part # or Pins Part #</u>	<u>Legacy Part Number</u>	<u>Fitment Notes</u>
<b>Early models</b>	FKTM002-TRS or -PIN	F0075BX-000	Requires uncapped nut and nut cannot protrude beyond tip of axle
<b>GP2 (up to 21)</b>	FKRA001-TRS or -PIN	F0075US-000	Requires uncapped nut and nut cannot protrude beyond tip of axle
<b>GP2 (22-24)</b>	FKRA002-TRS or -PIN	F0075ZF-000	Requires uncapped nut and nut cannot protrude beyond tip of axle

Kramer pin kits are designed to fit the axle. If your axle nut sticks out further than the axle, you may experience an overly tight fit. If this is the case, replace the nut or sand it down.

We will not modify pins under warranty to fit a nut that protrudes beyond the tip of the axle. You can pay for a customized pin to be made, but the new pin is not covered by our bike fitment guarantee due to inconsistencies that have been present on these bikes axles.
