Ducati	1299 Panigale	1098L	1098 MV	F0099-003	F0099-004
Ducati	Panigale V4 (ELITE OAR) **	1098L	1098 MV	F0099-003	F0099-004
Ducati	V4 Streetfighter (ELITE OAR) **	1098L	1098 MV	F0099-003	F0099-004

\* 1098 Superbike, first shipment from Italy used the 1098MV on both sides of bike

\*\* Regular Hybrid OAR stand can lift the bikes but does not provide adequate clearance for tire warmers

\*\*\* More Ducati models found on the next page \*\*\*

## Pit Bull OAR Pin Fitting Chart – Revised 12/9/25

BMW	K1300 (08 - 16 models)		B		F0099-007
BMW	R1300GS / GSA (25 models)		B		F0099-007
BMW	R9T (13 - 16 models)		B		F0099-007
BMW	R9T (17 - 24 models)		B2		F0099-018
BMW	R12		TBD		

In 2025 some BMW models(R1300GS, R12S, maybe more) started using the slightly smaller hub diameter again like older models. We are still acquiring more information to determine which hubs in '25-'26 will use the smaller “B” pin.

We do not reference left/right on BMW models because they changed what side the final drive was on over time on some models(possibly mid-year). Call us or speak to your mechanic if you do not know what side your drive is on.

\*\* H2/H2R Stand (F0109-1000) allows for normal use of stand. H2 pin can still be used on other Pit Bull single sided swingarm stands, but pin must be inserted first and then secured to stand using provided(when pin is purchased separately) lynchpin. Call with any questions you may have: 256-533-1977
