****** HOW TO USE THIS FITTING CHART ******

Part numbers shown are for the complete TRS including pins.

If you need just pins, change part number from "-TRS" to "-PIN"

Legacy part numbers were used until late 2023 before numbering system was changed.

If product link not present or does not work, call 256-533-1977 to order.

APRILIA

<u>Bike Model</u>	<u>TRS Part # or Pins Part #</u>	<u>Legacy Part Number</u>	<u>Fitment Notes</u>
RS125	<u>FAPR002-TRS</u> or <u>-PIN</u>	F0075AU-000

KRAMER

<u>Bike Model</u>	<u>TRS Part # or Pins Part #</u>	<u>Legacy Part Number</u>	<u>Fitment Notes</u>
Early models	FKTM002-TRS or -PIN	F0075BX-000	Requires uncapped nut and nut cannot protrude beyond tip of axle
GP2 (up to 21)	All newer Kramers are now built-to-order due to inconsistencies in Kramer axles. Email info@pit-bull.com to get measurement sheet which will need filled out before ordering.		
GP2 (22-24)	All newer Kramers are now built-to-order due to inconsistencies in Kramer axles. Email info@pit-bull.com to get measurement sheet which will need filled out before ordering.		

Kramer pin kits are designed to fit the axle. If your axle nut sticks out further than the axle, you may experience an overly tight fit. If this is the case, replace the nut, sand it down, or provide a measurement for axle length that includes the nut if it protrudes.

We will not modify pins under warranty to fit Kramer axles. You are responsible for the measurements you provide, and any modifications will have to be made at your expense.
