

Using the pit bull Sport Classic Rear Stand:

- The Sport Classic Rear Stand is designed for use with Ducati Paul Smart 1000, GT 1000, and Sport 1000 motorcycles. This stand is designed for use exclusively with these motorcycles.

For use: Position the stand behind the

- motorcycle and line up the swivels so that the two pegs toward the front of the bike are underneath the swingarm and the rear peg that is slightly raised is positioned behind the swingarm. The rear peg will prevent your stand from sliding forward on the swingarm.

When lifting the motorcycle, place one hand on the stand and with the other hand hold your motorcycle upright while you line the stand up and complete the lifting process.

The swivels should be placed as shown below, with the rearmost peg behind the swingarm, not underneath it. The counterweight will ensure that the swivels are in the proper position to lift your motorcycle.
